

Fillware Technologies, in collaboration with Pharmacy Access Solutions Inc. (PASI), introduces **Access Point™ Business Intelligence Tool**.

- ▶ Do you have timely and accurate accounting and financial performance information?
- ▶ Are you able to reconcile your accounting, dispensing and POS systems?
- ▶ Is store follow-up and manual data entry increasing personnel resource requirements?
- ▶ Are your information systems able to effectively and economically scale as your grow?

PASI leverages our Access Point™ suite of technology solutions and integration with Fillware Technologies to provide you, our valued customers, with **Access Point™ Business Intelligence Tool**.

Access Point™ Business Intelligence Tool provides you with:

- ▶ automated retrieval of daily, adjudicated, and granular trending sales (Rx and Front Shop) data from one, or a multiple of stores, removing administrative time for in-store personnel to gather/send the data, and/or follow-up by bookkeeping staff;
- ▶ timely direct imports of pharmacy data into your accounting software, significantly reducing data entry, trouble shooting, and reconciliation time;
- ▶ interactive, web-enabled performance dashboards provide management with easily accessed accounting and sales trending data in support of store performance analysis;
- ▶ reconciled accounting, dispensing and POS systems.

**Access Point™ Business Intelligence Tool** provides an effective means to automate your financial management needs while increasing efficiencies and cost savings, leaving your personnel resources to focus on supporting and growing your pharmacy business!
